-**Class**: Validator -> Types Embedded in Names ("dataString")

-**Class**: Admin -> Uncommunicative Names ("optionIn", "opc")

-**Class**: HomeSchoolLegalGuardian -> Dead Code (Empty Class)

-**Class**: HomeSchoolStudent -> Redundant or meaningless comments

-**Class**: Schedule -> Dead Code (Empty Class)

-**Class**: Teacher -> Types Embedded in Names (otionMenu)

Recomendation

It is recommended to eliminate or use the classes that are empty, in addition to modifying the name of some variables that have a syntactic error.
